

LogView HCW

kamstrup

The intelligent meter log reading

- Software for log reading of Kamstrup heat, cooling and water meters
- One LogView HCW for all meters
- Intuitive and easy-to-use
- Multiple innovative advantages and smart features

LogView HCW reads the logs in all Kamstrup HCW-meters

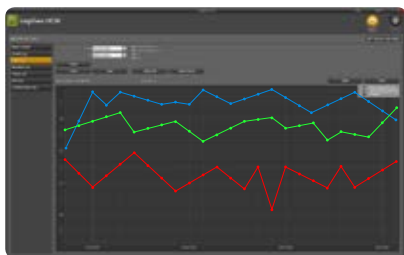

LogView HCW is the intelligent and easy-to-use software developed for reading of logs in all Kamstrup heat, cooling, water meters and pressure sensors.

All you need is the LogView HCW software and an optical read-out head.

The multi-lingual software is available for free on our website and can easily be installed on your PC.

Just place the read-out head on the meter's optical eye and connect it to your PC with the USB plug. LogView HCW automatically installs the driver for the optical read-out head during installation, detects the COM port and the meter type.

You are now ready to read the meter logs.

Features

- Log reading
- Hour log
- Day log
- Month log
- Year log
- Minute log for MULTICAL® 403
- Interval log for most meters
- Module logger for MULTICAL® 601, 602, 62 and 801
- Info log for MULTICAL® 302 and 403
- Software success log for MULTICAL® 403
- Software attempt log for MULTICAL® 403

Kamstrup meters supported by LogView HCW

Heat/cooling meters

- MULTICAL® 302
- MULTICAL® 402
- MULTICAL® 403
- MULTICAL® 601
- MULTICAL® 602/SVM S6
- MULTICAL® 801

Water meters

- MULTICAL® 21
- flowIQ® 2100/01/02/03
- flowIQ® 3100/01
- MULTICAL® 62

Pressure Sensors

Kamstrup PressureSensor

- 20 GB free HD space
- 1920 x 1080

Administrator rights to the PC are needed in order to install and use the programs. They must be installed under the user login of the person, who is to use the programs.

We create progress for others

Kamstrup is a world leading supplier of energy and water metering. We use our superior technology, deep customer understanding and industry vision to deliver more intelligent, reliable and cost effective ways to measure and manage the consumption of energy and water. We always define our value by the progress we create for others, and our finest work is to help our customers run a better, more efficient business.

We are inspired by better; we never settle for second best and lead by example, always searching for new ways to advance our learning and turn opportunity into benefit. Through our leadership, expertise and passion for partnership, we always think forward in pursuit of a brighter energy and water future.

We are represented in more than 60 countries worldwide by local offices or by distributors.

Think forward
